

## Unpacking

Please make sure the package contains the following items:

IP-Phone x 1

Stand x 1

Handset with cord x 1

Ethernet cable x 1

Quick guide x 1

Power Adapter x 1 (Optional)

## Product Overview

# Akuvox

## Basic Setup

**Mounting:** Slide the short edges of the L-shaped stand (the prongs) into the phone's two rear slots (see below). Slide the prongs in until they are locked.

Connect the handset and optional headset as shown below:

## Connect Network Cable and Power

You can either connect the IP-Phone to the power adapter directly or a PoE (Power over Ethernet) compliant switch or hub. The IP-phone can also share the network connection with other network devices by using PC port. Connection is shown below:

Note: If Power over Ethernet is being used, do not plug in the AC adapter.

# Quick Guide

## Configuration

1. After setting up the network and power, connect IP phone to your computer, then press **OK** button to check the IP address in the main menu. *( If you are using DHCP to obtain IP address )*
2. Launch web browser and type in the IP address to access web interface. Login with username and passwords(admin by default).
3. Register the device using your SIP account. *( Please refer to user manual for more information )*
